Celebration
of
Learning
2025

5th Grade

5th Grade ELA team will be showcasing our Ancient Civilization Codex project posters

5th Grade Math will allow parents to explore Volume

5th Grade Science will be showcasing students' Ecosystems

5th Grade Social Studies will be sharing their Age of Exploration Book and their unit projects

6TH

GRADE

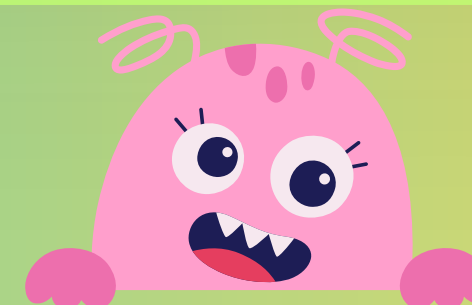

Miss Fresch Rm 54 – Ratio monsters have invaded Ms. Fresch's room! See how we have used our knowledge of ratios to create fun monster families of equivalent ratios.

Mrs. Fox's students will be showcasing their project from the Mysteries and Investigations Unit that outlines one of the scientists experimental process

Mrs. Ladd – Room 55 – Come see student projects on display from our 6th Amplify CKLA curriculum, and challenge your adult in an ELA skills board game!

For the upcoming Celebration of Learning, Mr. Gorham's 6th grade ELA and Social Studies classes, students will be displaying their Yellow fever transmission posters, China Dynasty Travel Brochure, and Egypt Pharaoh posters.

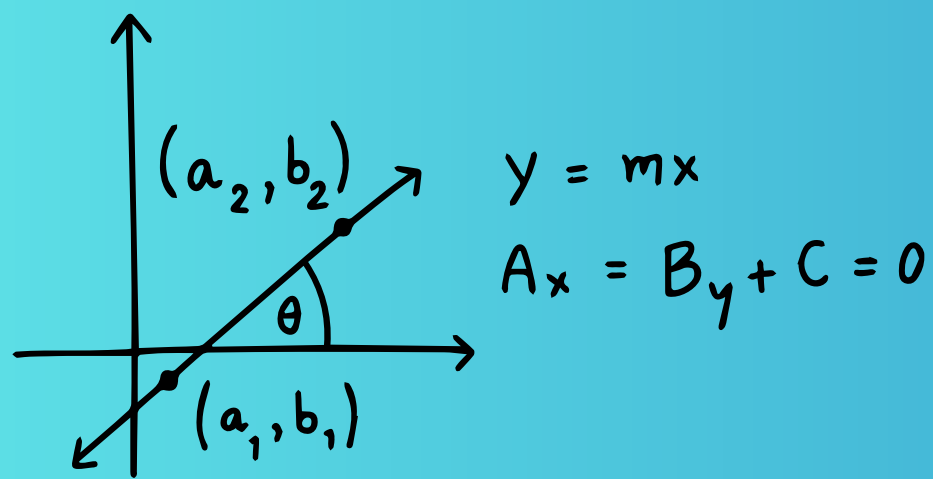

Come to Mrs. Kennedy's class to see her students showcasing their Water Cycle and Ancient China projects. We have 3D models, posers, and pamphlets to share!

Mrs. Sargent Math/Science classes, students will be showcasing Ratio Monster projects and Water Cycle Projects.

Mrs. Burdick will be hosting a students vs. parents "Are You Smarter than a 6th Grader?" math Gimkit game (which will run approx. every 15 minutes throughout the evening) along with allowing students to show off their Earthquake Towers on the shake table! Students' "Off the Grid" projects will also be on display (demonstrating research-based energy and cost efficient living plans).

7TH GRADE

Mrs. Buske's students will be showcasing Black-Out Poetry along with other completed writings

Social Studies student posters will be displayed on the walls in the 8th grade wing

Mrs. Simpson is having students draw/color an ocean life themed scaled drawing using their knowledge of scale factor.

Mrs. Hogan's classes will have writing samples on display.

Mrs. Blakeley's ELA student's work will be displayed along with their student blackout poetry and their A Long Walk to Water essays.

Mrs. Pelton's classes have been learning about the Human Body Systems. They all received their PhDs and were busy working on Patient Case Files. Come try your best to engage your Body's Systems in our balance challenge.

7th Grade Health students were introduced to the power of social norms approach in decreasing adolescent drug use. Using this approach, students created flyers correcting the normative belief that most teens use drugs & alcohol. The project includes an actual statistic about current teen drug use, facts to deter others from using illegal substances and highlights their own reasons for not using drugs.

***Parent/Student Activity: Ranking the risk.

8th Grade

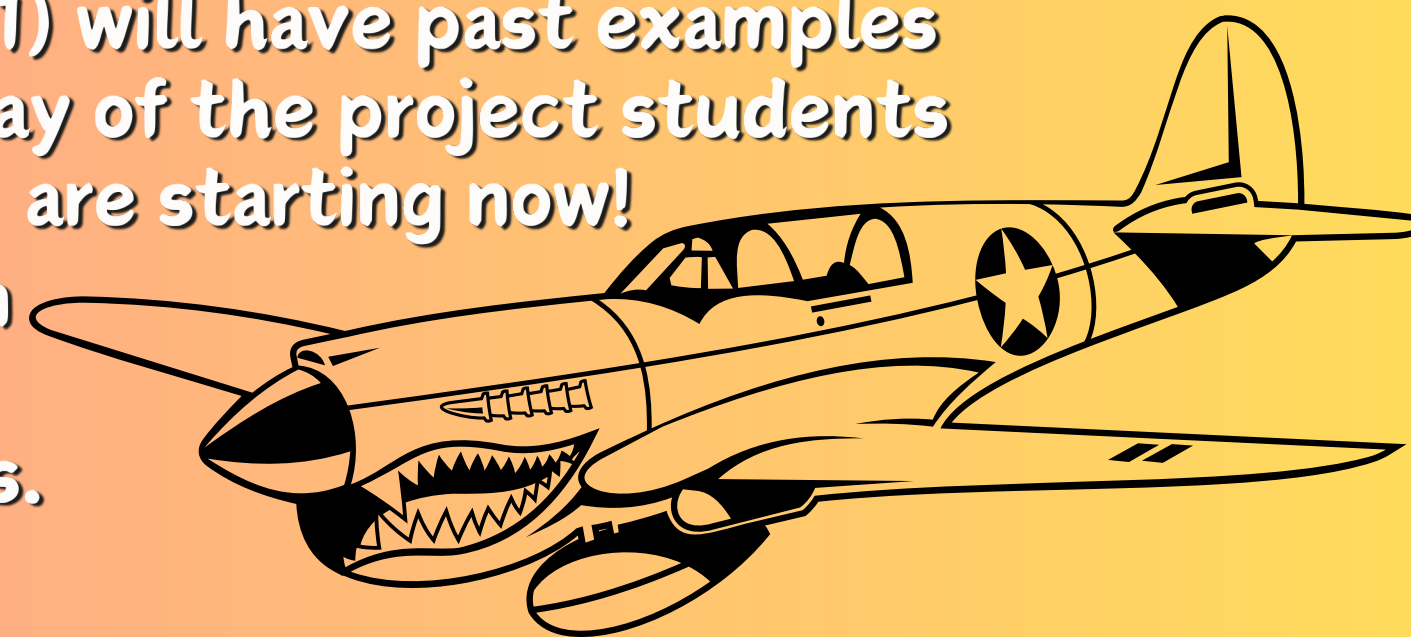

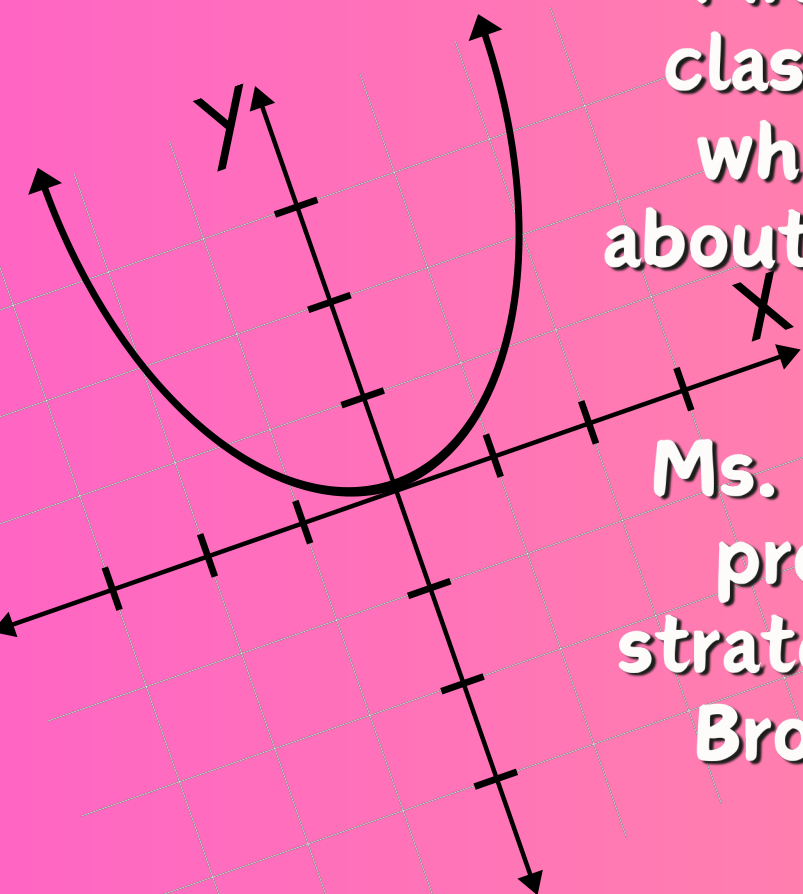

Math 8 – Mr. Murabito
Extra Credit QR Code – an
opportunity for student and parent
to work together and submit
regarding our Math 8 Curriculum.

Ms. Holliday's Science 8 classes will be
showcasing their learning through the State Lab
Investigations and online lab experiences.
Students have been designing lab procedures
using specific methods and materials to identify
mixture components.

Mrs. Pelton's Science
classes are showing off
what they've learned
about famous scientists in
room 32!

Mr. Campbell's Social Studies class
(room 31) will have past examples
on display of the project students
are starting now!

Ms. Brooks' math class will have transformation
projects, Math About Me projects and math
strategy posters hanging outside of Room 18. Ms.
Brooks herself will be in room 34 so say hello!

8-1-1

Team 8-1 will gather in Room 34 to show off all of the fun and exciting work and projects our 8th graders have been working on this year!

12-1-4

What have our students been up to for the last ten weeks? Come and see a snapshot of their hard work, creativity, and learning across all subjects in Room 10!!

Foreign Languages

8th grade Spanish students will be showcasing their learning through their “Outfits through the Seasons” project as well as other various projects that they have completed throughout the year.

German students in both 7th and 8th grade will be creating “wer bin ich” or who am I T-shirts to showcase their abilities to create complex sentences with the German language. They will be describing themselves, and talking about what makes them who they are in the target language!

7th grade Spanish and French students will be showcasing their learning through an “All About Me” project as well as other various projects that they have completed throughout the year.

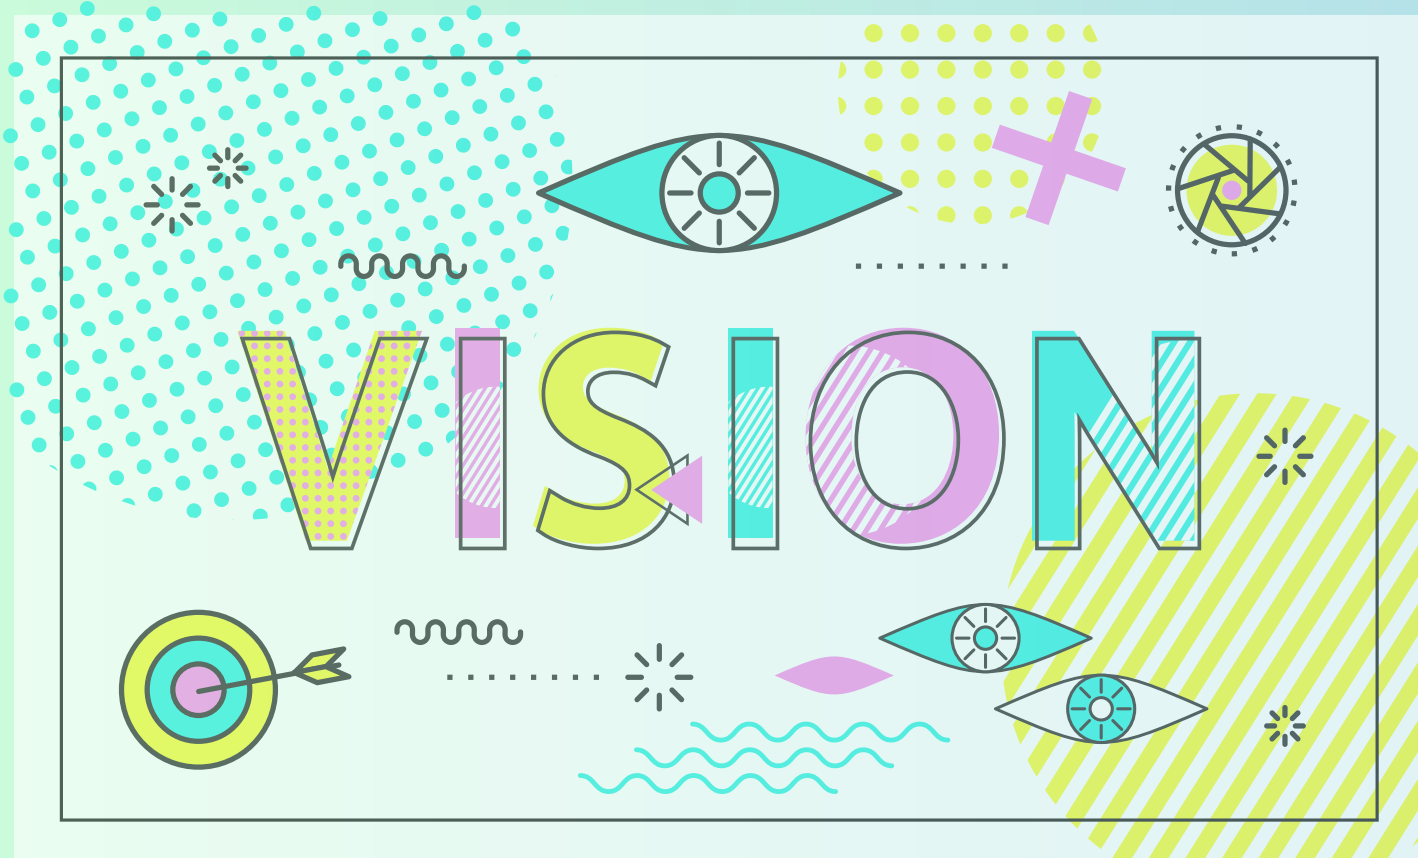

8th grade French students will be showing off model houses they made out of cardboard boxes, with explanatory paragraphs in French

AVID 5-6: project posters will be presented along the main hallways

AVID 7/8: will feature our Innovation Summit winners and their products and awards. We will also showcase student organizational systems, AVID protocols for success, and student testimonials.

TECHNOLOGY

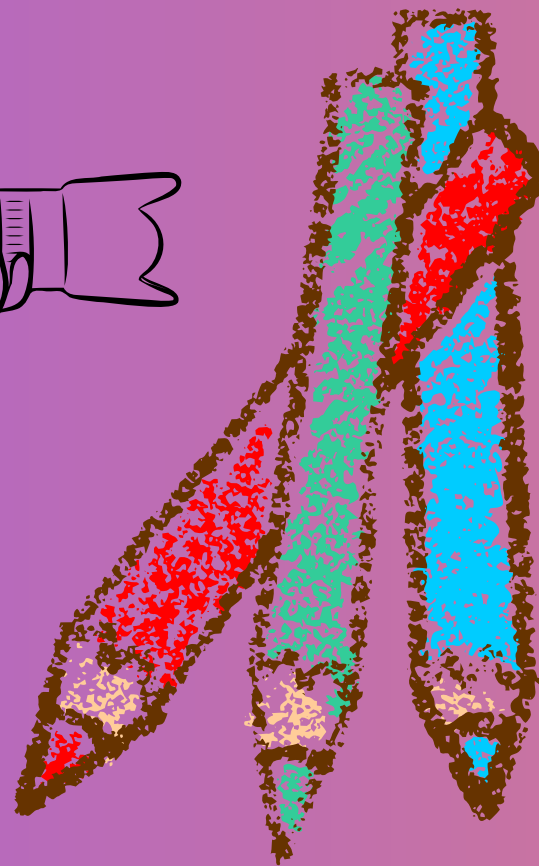

Mr. Connolly's Tech 8 and Exploratory Occ classes will be featuring student work on display.

Mr. Beckley's Tech 7 classes we will have multiple class projects on display, as well as a 3D printing demonstration. Stop by to see past, current and future projects including the Gumball Machine, Birdhouse, Corn Hole Board Game, 3D Printed Cell Phone Holder/Charger and Fishing Pole Cart.

These projects are all student Designed, Manufactured, Assembled and Sold, with proceeds going to support the annual 7th grade field trip to Boldt Castle!

ART & Music

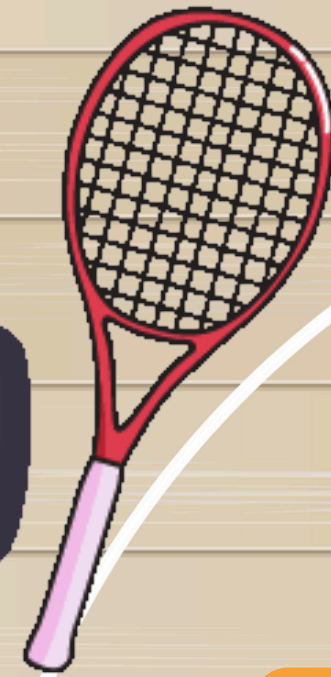

Studio in Art students will be showcasing their portfolios in the art rooms and in the art hallway.

Please stop down to see students working independently on artworks and check out their portfolio of work created this year!

Our music students will be performing their NYSSMA solos in the auditorium!

PHYSICAL EDUCATION

The Physical Education Staff will be outside of the Gymnasium with information on next year's sports.

Come check out our student's awesome archery skills on the bulls eye board in the gym hall!!!

If you have any questions about how to register on Family ID, ask our amazing PE Staff and they can help get you on your way!

RTI & MORE

Come play some math fluency games with RTI in the library!

Mrs. Rossignol's RTI 7&8 kids made one-pager posters summarizing our work with making inferences. They will be hanging outside of room 38. Come see what we've been working on this year!

i-Ready Q & A with the ELA and Math Instructional Coaches in the library. Stop by to ask any questions and receive parent resources to support i-Ready at home.

In room 65, Mrs. Soscia's classes will be sharing a recipe book of "Our Favorite Recipes from Career & Life Skills."

Speech with Ms. Bates: May is National Speech-Language and Hearing Month! We are having a poster contest to promote communication and how it affects our lives. If your child receives speech and language services, please come down to room 71 to vote for your favorite poster. There will also be screen time tips available for families who are looking to put down the technology and engage in more face-to-face family interactions.
