# **2023 MACS CODE OF CONDUCT**

**BOARD APPROVED 7/11/23**

**UNDERGOING IMPLEMENTATION AT THE 15 WEEK MARKING PERIOD**

## **XIII. EXTRACURRICULAR ACTIVITIES**

Extracurricular activities include; athletics, clubs, competitions, drama, musicals, selective organizations, etc.

Students involved in school-supported activity programs are expected to exemplify good citizenship both on and off school grounds. The student must display good behavior both in practice and during games and activities.

Students found to be in violation of the code of conduct will be subject to the corresponding range of consequences and may also face consequences from a one game or activity suspension up to the dismissal from the team or the group.

The use, possession, sale or distribution of alcohol or other controlled substances or the use and/or possession of drug paraphernalia is prohibited. Students are also prohibited from the use or possession of tobacco and tobacco products. See pages 8 and 9 for definitions of; Illegal Substances, Tobacco Products and Under the Influence.

A conference will be held to review the affected student's violation with the student, a parent, the coach or the advisor, the Building Principal, and/or the Athletic Director.

The penalties will range from a one game or activity suspension to dismissal from the team or the group. If suspended from a game or an activity, the student must attend practices.

Individual coaches and advisors may set up rules pertaining to their particular sport or activity. Students will be informed of these rules and are required to abide by them.

Students who are members of an athletic team, and who receive a school suspension from the Building Principal for any conduct related disciplinary infractions, will have their suspension reviewed for training rules violation(s).

Any student who has issues or concerns of any kind regarding their participation in a sport or activity will bring it to the attention of the coach or the advisor and expect an appropriate decision.

Any member of the team or group that is aware of another student's issues or concerns will bring it to the attention of the coach or advisor so that such dissatisfaction can be addressed. When related to interscholastic sports, the Athletic Director will be consulted if the matter cannot be resolved between the coach and the student(s).

When related to other school-supported activities, the Building Principal will be consulted if the matter cannot be resolved between the advisor and the student(s).

## A. Academics

Students in extracurricular activities must balance the roles of being a full-time student and a part-time participant in the extracurricular activity. Our expectations are that students can:

1. maintain passing averages in their courses;
2. seek extra help from staff when needed to help them maintain passing averages; and
3. always place a high level of importance on their academic achievement.

However, should a student fall below a grade of 65 in a class, the following policy will be enforced;

After the first five weeks of the start of a course, administration runs grades for all students. If a student is failing a course(s), the following policy will be implemented:

### Level 1:

A student failing a course(s) is expected to seek academic help from their teacher on a regular basis. The student will receive a warning and has two school weeks to improve their grade to passing (grade of 65 or higher). With assistance from administration, the student and a parent must schedule a conference with the teacher(s) to draft a plan of action to bring up the grade in the course(s) to a passing level. At the end of the two-week period, the administration will generate a new grade report. If the student is not failing that course(s), they remain fully eligible to participate in extracurricular activities. Otherwise, the student moves to Level 2.

### Level 2:

If the student is still failing the course(s), they cannot participate in games, performances, competitions, or any events associated with extracurricular activities until the grade(s) is passing. They may continue to attend rehearsals, practices, meetings, or other routine activities associated with the extracurricular activity. At the end of the two-week school period, the administration will generate a new grade report. If the student is passing the course, they remain fully eligible to participate in extracurricular activities. Otherwise, the student moves to Level 3.

### Level 3:

If the student is still failing the course(s), they cannot participate in practices, 2023 pg. 45 rehearsals, meetings, or other routine activities associated with the extracurricular activity and cannot participate in games, performances, competitions, or any events associated with the extracurricular activity until they have a passing grade(s). The student is fully eligible to participate when they are passing the course(s). At the completion of a course, the policy resets.

## B. Attendance

In order to participate in practice or rehearsal, a game or activity on a given day, a student must be in attendance before 10:00 AM. Excused absences are the only exception to this. Students with late arrival are expected to be in school by their designated time period.

Any absence on the day in question must be for a legal reason, with a written excuse submitted to the school. Any student absent on a Friday will not be able to participate in any event on the following Saturday, unless the parent presents a written valid reason for absence – if the student was under a doctor’s care, the doctor should provide the student with a medical release to participate in the sport or the activity.

Each student participant is expected to be at every scheduled practice or rehearsal, game or activity unless they have a medical excuse or legal excuse from the office, one of their teachers, or their parents.

Students who plan to be absent from a practice or rehearsal, game or activity must personally notify the coach or advisor prior to the practice or rehearsal, the game or activity that they expect to miss. Students that are absent from practice(s) or rehearsal(s) may be withheld from participation for either a portion or all of their next game or activity. A student’s absence may result in a loss of conditioning or lack of awareness of new team or group strategies that would place the student behind their team or group members in these areas. Students are expected to be in attendance the day after a game or activity.

No student will quit a team or group without first talking with the coach or the advisor and explaining the reason for leaving the team or group. It is the responsibility of the student to confer with the coach or the advisor regarding their reason(s) for quitting.

The student must set up a meeting with the coach or the advisor within two school days from the last day of participation for this discussion. Any and all equipment must be returned upon termination of participation. If a student quits a team or a group without first talking with the coach or the advisor and explaining the reason for leaving the team or the group or fails to return any and all equipment upon termination of participation, they may be disqualified from participating on an athletic team or in a group at the discretion of the Athletic Director or Building Administrator.

The entire of Code of Conduct can be found on the District Website by clicking on the symbol circled in yellow below.
